

# EverFrame™

Exterior Frame Products by EverMark®

## EverJamb™

The hardest working exterior frame jamb made. Engineered with a lower section of PVC to keep water and insects from damaging and shortening frame life. Builders are discovering these value-added, cost-effective frame components are eliminating costly call-backs.

## EverMull™

Like the EverJamb,™ these mullions are constructed with a lower section made of a unique PVC material. Available with many options and two popular profiles.

## EverTrim™

Beautifully moulded and maintenance-free brickmould that works and applies like wood. This brickmould will not need replacing due to insects or moisture rot.

*The patented<sup>†</sup> EverFrame™ jamb is constructed with a lower section of PVC that eliminates moisture wickage - the No.1 cause of frame failure.*

## The EverFrame™ Advantage

- Limited Lifetime Warranty
- Cost effective component price
- Unprecedented Entry Frame Protection

# EverFrame™

## Exterior Frame Products

EverFrame™ exterior frame products provide a solution to moisture wicking and the resultant frame rot, insect infestation and costly call-backs. Beautifully crafted entry frame, double-primed components provide the workability and warmth of wood while providing cost-effective protection. A wide array of sizes and options give you flexibility and control—from inventory to installation.

**EverJamb™** Unique exterior door jamb combining quality double-primed wood with an integral lower section of rot-free PVC product. Accurately crafted and available in standard widths with hinges, security plate and weatherstripping factory-applied.

- Superior fingerjoint construction process enhances structural integrity of jamb while fusing rot-free lower section.

Frame sizes available  
*Nominal sizes*

WIDTHS			HEIGHTS	
4-9/16"	5-1/4"	6-9/16"	6'8"	8'0"

- Machining Options include hinge prep mortising, strike and deadbolt prep and pilot holes.

- Options include pre-installed security strike plate, hinges (US2-D, US3/4, primed, US4 and many others) and weatherstripping (compression or magnetic, both in beige or bronze).

**EverMull™** Attractive, primed, rot-free with PVC lower section that will not warp, check, split or wick moisture. Like the EverJamb™, this mullion is available with factory-applied hinges and several weatherstripping options.

**EverTrim™** Beautifully moulded brickmould to complement the EverMark EverJamb™ and EverMull™ frame components. Primed, ready-to-paint and easy to apply.

- Standard brickmould profiles available. Miter cut and available in all lengths.

### The EverFrame™ Limited Lifetime Warranty

Evermark, LLC warrants their EverFrame™ exterior door jamb products (which include EverJamb™ and EverMull™) against end rotting, for as long as the original purchaser owns the EverFrame™ product. Should deterioration due to rotting occur, rendering the jamb unable to support a hinge or sill, Evermark, LLC will replace the jamb without cost to the consumer for parts. Proof of purchase is required. This warranty applies to EverFrame™ products used in residential construction and to the original homeowner only, for as long as the original purchaser owns the EverFrame™ Product. This warranty does not cover defects in the finish or damage caused by improper painting, caulking, or installation. This warranty is void if product is damaged through improper or unreasonable use. This warranty is void if product is trimmed on the PVC end. EverFrame™ is not covered in warranty for not properly maintaining the door system or its components. Storm door installations, associated with our product, require sufficient ventilation to eliminate excessive heat build-up in the airspace between both doors. Failure to comply with this requirement voids this warranty.

Please note: all exposed surfaces of the EverFrame™ must be painted with exterior grade paint within 60 days of installation, failure to do so will void this warranty. It is a requirement of this warranty that the customer keeps and provides all invoices, receipts, and other relevant documents received at the time of purchase or for the maintenance of the door system and its components.
